### PROFILE

Web developer and designer who redesigns and upgrades websites so they load fast, look premium and turn visits into enquiries, with a special interest in fintech and crypto interfaces. Trained for three years under an experienced mentor in web development, graphic design, photo editing and video, and now working independently. I take projects end to end, from the first call to launch.

### EXPERIENCE

#### Independent Web Developer & Designer

2025 – Present

*Kasim Elite Digital Global (own studio) • Port Harcourt, Nigeria • remote*

- Designed, coded and launched my own studio website and online store (details under Selected work).
- Completed photo editing, image creation and video creation jobs for individual clients.
- Now offering website redesign, website builds and fintech-focused interface design to businesses.

#### Apprentice — Web Development, Design & Video

3 years

*Trained under an experienced mentor*

- Learned web development, graphic design, photo editing and video production through hands-on practice on real work.

### SELECTED WORK

- **kasimempire.com** — designed, hand-coded (HTML, CSS, JavaScript) and deployed a six-page portfolio site with a digital product store, via GitHub and Vercel.
- **Fintech & crypto UI concepts** — exchange dashboard, multi-currency wallet and fintech design system, presented as labelled concept work.
- **AI films & retouching** — website advert, AI keynote, AI transformation and space films; before-and-after photo retouching.
- **Author, "How to Make Money with AI"** — ebook published and sold on Selar.
